

Civil/Cellular Tech I

Job Description

Pinnacle Consulting, Inc. is a Telecommunications Services company that offers wireless network operators a variety of services to narrow the expanse between the expectations of today's wireless services consumer and the ability of the network operator to meet or exceed those expectations. Core areas of Pinnacle's business include Civil/Cellular services, Microwave Engineer/ Network Services, Tower structure services and alternative power solutions. Optima Networks is looking for quality candidates to join our team as we continue to grow.

Job Requirements

6 – 18 months experience.

Basic understanding of cell site construction.

Running lines (coax) and antennas.

Ability to run coax and apply connectors.

Ability to mount antennas.

Required Skills

Basic knowledge of knots and tower rigging necessary.

Ability to operate aerial lifts, man lifts, skid steers and aerial platform equipment.

No issues with heights.
